ElderCarePay™

What is ElderCarePay™ . . .

ElderCarePay™ is the first software product specifically designed for household employers of nurses, nurses' aides, and other care givers. ElderCarePay™ is an easy to use, inexpensive Windows® payroll system. ElderCarePay™ and its accompanying Employer's Guide give you the power to comply with federal and state payroll tax laws without buying complicated business software or hiring expensive payroll services or accountants.

Save time and money . . .

Tax laws can be complicated, but with little initial effort anyone can set up a ElderCarePay™ payroll system. ElderCarePay's™ Employer's Guide and Set Up Wizard guide you through the set-up process. ElderCarePay™ also comes with a list of federal and state tax resources and all the federal forms you need. Once your payroll system is up and running, payday becomes a snap. At the click of your mouse, ElderCarePay™ calculates all the appropriate withholding taxes, tells you what to pay, and generates a payroll check and a detailed pay stub for your employee. And when tax time arrives, ElderCarePay™ can generate reports to assist you in completing your household employer's tax return. ElderCarePay™ includes full multiple employee support.

ElderCarePay™ won't overwhelm you . . .

ElderCarePay™ was designed *by* household employers for household employers. Thus, unlike complicated business software and integrated accounting packages, ElderCarePay™ includes only the features you need, including:

- > set-up wizard
- > prints Forms W-2 and W-3
- > prints Schedule H
- > prints checks with pay stubs or just pay stubs
- > complete payroll record maintenance
- > liability and federal form reporting
- > customizable reminders
- > customizable reporting
- > drop-down calendars
- > customizable pay stub messages
- > cash advance handling
- > vacation pay and bonus tracking
- > transaction printing and exporting
